DETAILED ACTION

1. This office action is in response to application 10/655,766 and amendment filed on 6/26/2006. Claims 1-12 remain pending in the application.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1, line 1, "the design" has been changed to --a design--, to correct minor informality.

Claim 5, line 1, "the design" has been changed to --a design--, to correct minor informality.

Claim 9, line 7, "the logic" has been changed to --a logic--, to correct minor informality.

Claim 10, line 3, "the logic" has been changed to --logic--, to correct minor informality.

Claim 11, line 1, "the logic" has been changed to --logic--, to correct minor informality.

EXAMINER'S STATEMENT AS TO THE REASONS FOR ALLOWANCE

3. The arguments have been persuasive and the rejections have been withdrawn. Claims 1-12 are allowed over the prior art of record.

Art Unit: 2825

4. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest a system/apparatus/computer program product/method for designing logic circuits comprising mainly representing multilevel logic schema in vector form (See Fig. 2); simplifying the multilevel logic schema into simplified form (See Fig. 8) by exploiting symmetries in the logical schema (See Fig. 3-7).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2825
